NOTEBOOKS

BUSINESS CLASS
B400A

The B400A is the perfect choice for business professionals looking to take their business places. A durable carbon fiber chassis, spill and wear resistant keyboard, along with anti-shock cushions and stringent quality testing ensure minimal downtime. The Ultrabook's 3 year International Warranty* and the additional coverage option of one-year Accidental Damage Protection offer additional peace of mind.

ESSENTIAL
S46CA / S56CA

This Ultrabook integrates a full set of ports which includes HDMI, VGA, USB 2.0, USB 3.0, and display port along with a built-in optical disc drive to deliver full features without compromising the mobile flexibility on-the-go users need. The Ultrabook's sleek grey hairline one-piece molded casing not only exudes sophistication but resists wear and tear. A 3rd generation Intel® Core™ processor supports smooth multi-tasking.

ZENBOOK
Prime UX51VZ

The UX51VZ is a beautiful and equally high performing mobile computing companion. NVIDIA® graphics and the Ultrabook's spacious 15.6" full HD (1920 x 1080) anti-glare display easily handle demanding graphics applications. Beautiful, fast, and fluid Windows 8 Professional delivers all of the benefits of Windows 8 plus new levels of productivity, security, and mobility.

All of our systems are hand build using components that have a proven track record for reliability and performance. Our technicians pay great attention to every system built. It's not unusual to see a Computer Connection system that has been in service for 10 years. Rest assured that when you purchase a Computer Connection system, you will get the best performance and value. All new Computer Connection systems come with a 1 year warranty.
